REMARKS

SOURCE

1. Three biplanes, their crews and a guard detail of three or four SA wearing red-border black epaulets were observed at the MAGDEBURG-South (M 53/D 69) airfield on 29 June 1949. About 20 workers did clearance work near the hangars. The landing field was in poor condition. The airfield administration building had been completely dismantled. The field, which is 2,500 x 800 feet, can be expanded to the west and south.
2. The MAGDEBURG-East (M 53/D 79) airfield was unoccupied and unguarded; the larger part of the landing field had been parceled out for agricultural purposes.

25X1A Comment: The condition and the occupation of the MAGDEBURG-East airfields have not changed since May 1949.
